

Capabilities Statement

www.s5solutions.com

S5 Solutions is an engineering integration company. We operate where software and hardware meet. We can support full new product development including embedded programming and hardware design or update existing hardware and software systems. S5 Solutions is an Automated Test Equipment (ATE) expert and National Instruments Alliance Partner. Drawing on decades of contracting experience and product development, Craig Bedward established S5 Solutions in 2013. We have successful projects in aerospace, medical, commercial, and industrial markets.

Core Data

DUNS: 079822033
CAGE: 7QL24
NAICS: 541330, 541511, 541512, 541714, 541715

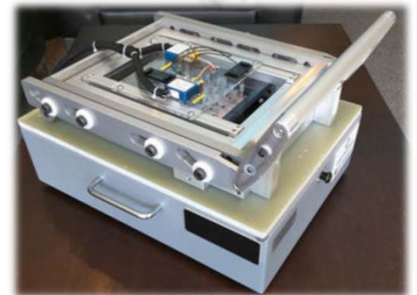

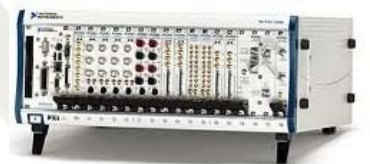

Core Competencies

- Design Services
- Hardware Architecture Development
- Software Architecture Development
- Prototyping
- Product Development
- Automated Test Equipment Systems
- Expert LabVIEW Development
- Electrical Engineering
- Software Engineering
- Embedded Programming
- Consulting Services
- Medical Systems Hardware and Software Support
- Aerospace Systems Hardware and Software Support
- Web / Cloud Solutions, Web App & Mobile
- Database Systems
- Manufacturing Control and Monitoring systems

Past Performance

- Amazon
- AR Modular RF
- Avtech Tye Aerospace
- Blue Origin Aerospace
- BTI Targetry
- CandleScience
- Chicago Children's Museum
- Crane Aerospace
- Denver Museum of Natural Science
- EKOS Corporation
- Embraer (S.A.)
- EMP Museum
- Fatigue Technology
- Fluke
- Intellectual Ventures
- John Deere
- Johnson & Johnson
- Kenworth Truck
- Kidde Aerospace / UTC
- Korry Control Systems
- Kyma Technologies
- Learjet
- Medtronic
- Microsoft
- Oakley / Luxottica
- Outerwall
- PACCAR Technical Center
- Schneider Electric
- Sensorlink
- Siemens
- Stanley Industrial
- Starbucks
- Square D
- Warn Industries
- Xantrex
- Zodiac Aerospace

Differentiators

- We treat our customer's businesses like it is our very own. We are concerned for our customer's success and always keep their strategic perspective in mind.
- Our staff take a personal interest in delivering quality results from our company to our customers.
- Consistent high quality results delivered on time and on budget.

Available Resources

- Internal staff of engineers & technicians.
